

## Emails from recent graduates of our program:

Just wanted to drop you a note about what has happened in my life since graduating from your school. I was able to find a dental assistant position at Dr. \_\_\_\_\_ office in Roswell. He is a great dentist and a great person and I have been there for over 2 years now. The other news is that I have meet a wonderful man and we are getting married Nov. 5th of this year----I could not be happier. Your program helped me jump start my life again and I thank you for that. It was a very bad time for me, but I am 180 degrees from that point today. I hope all is well with you and your family. Best Regards,  
Mary-Jo

This is Abigail from your dental assisting course three years ago. You might not remember me, but I took your course with my mom and you wrote me a wonderful reference letter for dental hygiene school. I just wanted to reach out and say thank you so much for your course and your letter. I am graduating hygiene school in 6 months, and would not be here today without your class. I learned so much from your course, and it grew into a passion for dentistry. Wish you and your future classes the best! Thank you so much,  
Abigail F. (soon to be RDH) !

I received a job at \_\_\_\_\_ Pediatrics office about two weeks before the program ended . I must say that this program has been wonderful and I've learned sooooo very much I'm happy to be starting my new career so soon and with so much knowledge already !  
Thanks to you and all your staff and program !!

Thank you again!

I just had an interview at Dr. \_\_\_\_\_ office and I got the job!!!!!! (: I start Monday!!! I am so excited! The office lady went to your school 30 years ago and said your school produces good dental assistants! Thank you so much for all the knowledge you have given me!  
Nicole D.

Hello Dr. E!! It's been 5 days since graduation and I already worked my first shift. I'm working for an amazing general dentist in Athens. He gave me everything I wanted! The salary, benefits, hours, time off I needed! Thanks for making my first day a success by equipping me with the knowledge and hand skills! Oh and I forgot to mention that I had several job offers. I actually referred Mayson when I had to cancel an interview and she interviewed for that Dr today! So looking good for us Northeastern students!  
Jennifer L.

---

Hey Dr. E, just wanted to let you know I've been doing a paid internship for the past week at a periodontist office in Carrollton, and today I was offered a full time position! Thank you and your staff so much for getting me to where I am today.  
Maribeth C.

Hey Dr. E! I wanted to thank you and your staff for such a wonderful experience at your school! I must admit, I was extremely nervous about going back to school, but I'm so glad I did! You all made those 10 weeks go by so fast! In those 10 weeks, I learned so much to help me get ready for my next step in life. Since I have graduated, I have been offered a position at Dr. \_\_\_\_ and Dr. \_\_\_\_\_ office in **Roswell making \$17/HR! I truly am thankful for you and your staff and have been recommending the program to anyone and everyone! Hopefully your fall classes will start to fill up soon! Let me know if you are in need of assistance with the classes as I would love to reconnect and share my testimony! Thanks again!!**  
Jade S.

It's Sugey from your winter class of 2016! Today is my second day working for Dentistry for Children and I absolutely love it! I was the one in your class who wanted to work in a pediatric and it surely happened. Just wanted to let you know and thank you for everything I learned! I put on the lead apron on the kids the way you taught us and one of my coworkers was amazed when I told her why I do it that way!  
Sugey D.

I am proud to say that I have accepted a job with [pediatric practice]. I started last week and love it. Thanks again for everything. Please let me know if you need me to come in the class to tell my success story. Post script (3 months later): Dr. E, I am now his #1 assistant, yea! And I have been put on the staff at Northside Hospital in order to accompany the doctor to the operating room for severely challenged patients....wow, what a ride it's been. I can't thank you enough.  
Best Wishes, Tiffany

Hi Dr. Erickson, I am a graduate from the March class, and I wanted to inform you that I just got hired full time at [pediatric practice] in Suwannee. I would like to thank everyone at DCI for helping me.

Thank you so much for your program. It is so wonderful and thoughtful that you came up with such a rewarding program. I received job offers throughout your program and accepted one with \_\_\_\_ Orthodontics soon after graduation. Thank you to you and your staff! I now have the most perfect job!

Over all this was a great schooling experience it was very fun and the instructors were awesome! I'm so glad to have been able to enjoy the school work and even enjoy studying at home! The best part was being able to take home what I did in school and show family and friends my great accomplishments. Thank you to all the staff for making it such a fun and knowledgeable experience. Thank you so much,  
Taylor

---

I wanted to let you know that I got hired at \_\_\_\_\_ Orthodontics in East Cobb last week! They received my information from you and after going in for an interview I got hired the next day! I start Monday and couldn't be more excited. Thank you to you and all of the instructors. Regards, Alina

I recently got a job working for Dr. \_\_\_\_\_ orthodontic office! I am really enjoying my new job and amazed at how much I've learned in one week! I love interacting with the patients and working in the lab. I am the only dental assistant in this small office and I never would have been able to do it without the training y'all provided for me at DCI! Thank you so much and I wish you all the very best in your personal and professional lives!  
Carol

---

Hope all is well; I just wanted you to know I have a job and I absolutely love it! I work at [a pediatric practice] and they are absolutely great! Thank you for all your help, I have referred a good friend of mine she is starting class in January, I know she's gonna love it and do great! Thanks again, Destiny

---

I got your contact information for a former student of yours, Brittany \_\_\_\_\_. She is an amazing worker and dental assistant! We are in need of 2 dental assistants to add full time to our general dentistry practice. Do you have anyone in mind that would be interested in a position that you would highly recommend?

I want to thank you so much for the experience and the education I received for the last couple months. I really enjoyed it and learned so much. I had an interview today with Dr. M\_\_\_\_\_ and it went amazingly well. I was hired right on the spot and I'm super excited to join his team!! Great benefits, pay and people!! I love the continuing education courses that he offers as well. Due to my interest and excitement in this field, I have two of my friends that are interested in dental assistant and I will be sending them your way. Thank you again and I can't wait to start my career as a dental assistant.  
Thanks, Kaitlyn

I am very grateful that I was able to go on a mission trip and helped assist with practical dental assisting, extractions and other treatments, etc. in Bolivia (South America). Here are some pictures that I would like to share.

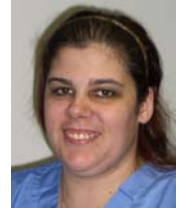

That's me preparing teeth for a filling. The dentist's name is Emily, whom I worked with there and taught me how to extract teeth. It was quite challenging because of the lack of resources, but gladly the materials and instruments we need were provided.

Because of you and your staff, I was able to perform my skills on a mission field. I was there for 5 months 10 days. Thank you so much  
Jay D.

---

I would like to thank you and all your staff for doing such an amazing job at DCI. I have been with Dr. \_\_\_\_\_ office for three weeks now making \$14/hour after only going through one interview. I absolutely LOVE working with Dr. \_\_\_\_\_ and his staff! They are all very patient and helpful! Dr. Whitesell and his staff were all impressed with how much I learned from DCI in only 10 weeks! Thank you again for teaching me so well and giving me the tools I needed to succeed as a dental assistant. Thanks to you sending my information to their office. I was fully employed with him less than a week after graduating.  
Kayla B.

---

Today was a free (charity) day at \_\_\_\_\_ Dental of Marietta, and while there were other students from other schools, I was the only one who participated in the treatment. I just want to say DR E thank you!! The money I spent at your course was well spent. Why? The students from other schools did not know any of the instruments and nothing about the dental procedures being performed. I was the only new assistant that got lots of requests from the dentists there to help them in different procedures. I feel so uplifted and good. Thank you again.  
Anoosheh

---

Thank you so much, I don't know too many schools who claim job placement that come through like you. I really appreciate it.  
Shanicqua

Hi Dr. E..... Everything is going well! I started as a sterilization assistant, and now I'm a full-fledged Periodontal Surgical Assistant at North Point Periodontics! I just LOVE my job and can't wait to get to work. Thank you and all your wonderful staff for making this possible. You have literally changed my life! That's me (right) ready for work.

---

Hello, I just wanted to start off by saying THANK YOU and your team for being so wonderful. I enjoyed your dental assisting program so much! I have the opportunity to work under Dr. \_\_\_\_\_ in his Oral Surgery practice and I couldn't be happier! I love my job and I am grateful for finding out about your dental assistant program so it could all be possible. I have told everyone I knew about it. In fact, 3 of your students in the Friday class are girls from my small town that I introduced to this program! Thank you for your personal recommendation to Dr. \_\_\_\_\_ and for all the emails after I graduated with job opportunities. What a wonderful experience I had! Thanks again.  
Brianna

---

I was a student of yours in the Saturday class this past course and I just wanted to brag on you and your program. I have a job in a dental office already and my doctors have been very impressed with how well I've done. Today one of my doctors let me pack cord while doing a crown prep! Thanks to you I wasn't nervous at all and I'm very happy I got the opportunity to be a part of your class, it's made my job easy and every day I'm doing things I learned straight from you and your wonderful instructors. Thank you again and I hope you are doing well!  
Marisa

Good morning Dr. E!!

I have decided to hire Lindsey S., she will start January 2, at 8 a.m. I thank you for the fine work you do with those students who are truly seeking a dental career. She has been hired for front desk receptionist, as I did Kendra B. who is now been promoted to Hygiene/Orthodontic Coordinator. I hope we can continue this relationship and I look forward as our office grows in hiring more of your students.

Hello Dr. Erickson! I just wanted to sincerely thank you, as well as Cassie and Kim, for everything you taught me while I was enrolled in your dental program. I am pleased to say that I have been given a great opportunity working in a periodontal/implant office, located in Kennesaw with Dr. \_\_\_\_\_. I've been here for about a month now and I couldn't ask for a better place to work. Thank you again for all of your time and patience, your efforts have not gone unnoticed. And once again, thank you for guiding me into this career path. I wouldn't be here without you!

Hello Dr. Erickson, my name is Alesha \_\_\_\_\_, RDH. I recently met a student of yours here at my office to do shadowing. I was quite thrilled to see she was from your school as I myself am a former student March 1996. I was a DA for 11 years after your classes, I did general, perio, oral surgery and I was pretty darn good if I do say so myself. I have encountered DAs from other, year-long schools that didn't know half of what I did right out of your school, I was definitely well prepared and thank you. I decided to further my dental career and became a hygienist in 2009. I was so ahead of others in the hygiene program. The student that came here said you all wanted to hear of past students success stories. ...well I am one!! And I promise I did not and will not become a prima donna hygienist we were warned about <g>. Thank you so much!

Alesha, RDH

I graduated from your class March 14, 2015. I just wanted to let you know that I was offered a position as a surgical assistant at \_\_\_\_\_ Oral & Facial surgery starting at \$14 an hour. Again, thank you SO MUCH!

Thank you so much!

---

Just thought it would be nice to update you on my starting career. I got hired at \_\_\_\_\_ Family Dentistry about a month ago, I love the office. The Dr. and staff are great because they help me a lot with any questions or I doubts that I may have. And I happen to work with former students of DCI. Thank you and your instructors without y'all help I wouldn't have done this.  
Maria

---

I just wanted to give you an update since I finished your program a little over a year ago. I have been at the same office since I graduated last May. I work for \_\_\_\_\_ Prosthodontists and I LOVE it. I love my job and everyone I work with. I recently even got free braces from an Orthodontist we refer to! I was actually offered a job at another office a few months ago. Between each office trying to get me to work there I ended up with a \$4 an hour raise! It made me feel awesome that my current office wanted me to stay so badly! I know it was your program that prepared me in such a way that they feel I am irreplaceable. Thank you so much! I am so glad I have the career of my dreams! :)  
Brittany

---

I GOT THE JOB!! I absolutely love Dr. \_\_\_\_\_ oral surgery office. Thank you so much for all of your help!! I turned in my resume and the next day got a phone call to schedule an interview. After the interview I felt very confident by the way he was talking. He let me watch a biopsy and afterwards shook my hand and told me they should get back with me within the next few days. The following morning the lady called me to see when I could start and offered

me the job. Just thought I'd let you know I really appreciate you and your instructors at the Buckhead location!! I couldn't have had a better experience with all of you!! Thanks so much,  
Lacey

Thank you so much for everything you and your assistants did for me. I had an amazing experience with you guys. I have had several of my friends see my success and ask about what school I went to. I have recommended your program to 3 friends so far. I hope they join and enjoy your class as much as I did! Thank you again to you and your staff!  
Kierra

I'm excitedly emailing you to inform you that I got a job!! I will be cross training in hygiene assisting as well as sitting chairside on Mondays with the periodontist. The office is wonderful and beautiful, and has pedo, ortho, oral surgery, perio, and general dentistry! It's exactly the kind of multi-specialty office I was hoping for! They got my information from Dental Careers so a huge thank you goes out to the whole staff at DCI for helping the students start their careers!  
Courtney

Thank you so much for all of your help and knowledge, I have a job in Buckhead with Dr. \_\_\_\_\_ and I absolutely love the staff and the office! I never expected to learn so much in such a short period of time. Thank you once again Dr. E!  
Denise S.

I just thought it would be good to update you on my career being you have been a big part in it. I have now been at Midtown Smile Center for two and a half months, and it's going great. So great I wasn't supposed to get a raise till 3 months and I have already received it. The best part is I was told today I have the Potential to soon become a manager for all my hard work and effort I have put into the office. I hope this makes your day. Thank you so much for always being there for your students even after we graduated. The interview went perfect. I got the job starting out at \$14 an hour and after the 90 day trial I get a \$1 raise. The staff and I connected immediately and that is the most important thing to me. They did 6 working interviews and they all said I was number 1 and I was the only one with no experience!! Thank you--- thank you---- thank you!!!!  
Delia N.

---

I just wanted to let you know that I am officially a permanent full time employee at \_\_\_\_\_ in Calhoun, Ga! I didn't settle and found the perfect place for me! Thank you so much for everything! Thank you, Angel

---

I just wanted to let you know I got a job on November 20th. I work for Dr. \_\_\_\_\_ at \_\_\_\_\_ Family Dentistry. I absolutely love everyone I work with and everything I get to do. I am the only dental assistant. I was thrown in the water real fast but that's ok because I've learned so much since I started. It was difficult my first two weeks remembering things and keeping up the pace but by my third week it became a lot easier! I just wanted to let you know I am employed. I thank you and everyone else for teaching me! I absolutely love being a dental assistant! Thank you,  
Ally K.

---

I am a recent graduate of Dr. E. I currently work for \_\_\_\_\_ orthodontics in Towne Lake and I am loving what I do. I got this job two weeks before I even graduated DCI, they helped me with job interviewing skills/tips and they helped get my name out there for interviews and possible job opportunities. Being hands on from day one was a huge plus and I am so thankful for the instructors and the knowledge they provided for me to succeed in this field.  
Stephanie J.

I interviewed with a general dentist last year, Dr. \_\_\_\_\_ he was great. His office staff, his hours, but most importantly, the care that he provided for his patients. I didn't get the job because he needed someone who had hands on general dentistry experience and at that time, besides instructing, I mostly had endo experience. [she worked for an endodontist following graduation from DCI]

His main assistant, became pregnant and had to go on immediate bed rest and they didn't have time to train a new assistant. However, he was so impressed with what I knew from [Dental Careers Institute] and how I handled myself with his patients during our working interview, he still remembered me after 1 year!! His practice has grown and he wanted to offer me a job before he asked someone else, or looked on Dental Post.

This is such a great testament to what a wonderful program that DCI offers and I am so blessed to be a part of it. Oh, the starting pay is \$19.00-\$21.00 an hour with an increase after probation of 90 days. I thought maybe you would like to share this story with your students.  
Have a wonderful week,  
Melissa

---

Thank you Dr. Erickson for everything. What i learned in class really has helped me at my new job. I started working at \_\_\_\_\_ Family Dental last week and I love it. It was a great start to a new year! Thank you Brooke

---

I'm very happy that, thanks to your help, I am working as a dental assistant! About two weeks after graduating I was offered a job at an Oral Surgery practice---it was exactly what I was looking for, and near where I live! Dr. \_\_\_\_\_ was very happy when I told him that you were my teacher and told me that you were good friends. Thanks Doctor and I wish you happy holidays. A big hug from Regla

---

I wanted to let you know I am officially a part of the staff at \_\_\_\_\_ Orthodontics! They found my resume on Dental Post. I had a working interview and now I'm hired. I just wanted to say thank you for teaching me everything I needed to know. I felt very prepared going in for all of my interviews. I went to at least 4 or 5 but this felt like the right fit for me. If I had any advice to my peers it would be to be patient. Not every office you get an interview with is going to be a good fit for you and you don't want to accept a job somewhere where you're not going to be happy. Money is important but I believe if you truly enjoy what you do, where you are and the people you work with, then it no longer feels like work. It's something you look forward to doing every day. I'm glad I found that and I hope my classmates do too! Thanks for everything, Brooke

---

I just wanted to let you know I got two job offers. One from \_\_\_\_\_, \$15.00 an hour, 2 miles away from my house. The other one, Dr. \_\_\_\_\_, \$16.00 an hour, 1/2 a mile from my house, I could walk there. So I have accepted Dr. \_\_\_\_\_ offer, I start on Monday. Thanks you guys for all the training and encouragement. HAPPY THANKSGIVING !! I have a lot to be thankful for! Heidi

---

This is Brittney from your previous class. I graduated around August 2013 and I received my first job the beginning of September. I work for \_\_\_\_\_ now in Smyrna, Ga. Thank you so much for the opportunity to become a part of your class and career. It really has made a difference in my life. Cassie & Kim are GREAT! & so are you, of course. I just wanted to take some time out of my busy, busy day to let you, Kim, and Cassie know that ya'll made a huge difference in my life and I appreciate everything you taught me. Brittney

---

I hope you're doing well! I was just emailing you to let you know that I have obtained a job at \_\_\_\_\_ Endodontics. Dr. \_\_\_\_\_ got my name from you and she's giving me a great opportunity. Thank you SO much! I've only been there a few weeks and I've learned so much already. Have a great day! Thanks again, Bryana

---

I have a job in an office about 7 minutes from my house. I was offered a dental assistant position in 2 different offices, one in Towne Lake and in Canton. They were both great places but the office in Canton felt like the best fit for me. The dentist is really pleasant to work for. Thank you again for all the help and support! I absolutely love my career. It was a pleasure to apart of your program. Ashley

---

I got a job offer from Dr. \_\_\_\_\_ today!!! This is the one that is 2 miles from my house. I start the 30th!! I am so excited!!! Thank you for all of y'all's help!!! I would have never gotten this opportunity without you! Thanks again, Rachel

---

Thank you very much for all your help, I went to an interview this week and they asked me to stay and offered me the job the same day! :) The office is located in Buford.  
Abigail

---

I am sooooo excited; I just got hired at Dr. \_\_\_\_\_ office at the North Fulton Hospital complex. Two of her staff have been with her for 13 years, so not a high turnover office. I am starting at \$12.00 an hour and a review in 3 months. Thanks again to you and your staff for all your guidance. I am so happy and so relieved.  
Mary-Jo

---

I am a former student of yours & wanted to update you on my current address. I have been and am continuing to send a lot of friends to your class. It has been such a wonderful experience for me and I LOVE being a dental assistant. Thanks again for everything!  
Jessi

---

Hey Dr. E -- My Job at \_\_\_\_\_ Pediatric Dentistry is going so wonderfully. I love it so much and couldn't have asked for a nicer office or nicer doctors. I fit in perfectly there and I love it. Thank you for everything ... I am doing the dental assisting, the marketing, and social media. I am the only dental assistant so I am learning a lot. Thanks again!  
Emily

---

I just wanted to say thank you for the information about the office on Cumming! I went for an interview on Monday and I fell in love with the people at the office they are super sweet and are willing to help in any way possible I can't wait to start working and be a part of their practice! I have a working day next week and I will go from there! I'm just so blessed that you guys have given me the education and skills I needed to get a job that I love and support my family, I will be forever grateful!! Thanks for everything.  
Katie

---

I am so excited to tell you that I was offered 3 jobs and accepted the one I wanted the most at \_\_\_\_\_. I LOVE this office and I start Tuesday! :) Thank you so much for giving me the awesome skills to get the offer! I couldn't be more ecstatic!!!

They also have an office in Dawsonville. I went there a few days last week to help out and they wanted to know if I could send someone like me who lives up that way to work at that one! It is VERY fast paced and the doctors are all WONDERFUL.  
Brittany

---

I just wanted to say thank you so much for the great experience during the ten week program. You, Kim, Cassie, and Monica are AMAZING!!! I wish you guys had an open practice!! I would fight tooth and nail to be a part of your team...hehe ;-) I also wanted to thank you for the letter of recommendation. That was very kind. I've had three job offers but have denied them due to location and number of hours per week. One of which was Dr. L\_\_\_\_\_! I loved him and was very excited about training as an orthodontics assistant and the starting pay but after further discussion we decided that the distance would more than likely become an issue in the future. I have faith that the perfect job for me and my family will come along soon. I'm currently

in the online interview process with A\_\_\_\_\_ Dental. I really want to work here they offer amazing benefits and the location is great. Thanks again for everything, you are awesome,  
Amber

Hello Dr. E, I just wanted to update up and let you know that I did get the job with Dr. B in Columbus. I am currently in training now and really advancing so well that I am starting to work on kids. I really like it, but I know that I could not have advanced so quickly if it wasn't for your program. Thanks so much Dr. E for you and your staff.

I just wanted to let you know that I was offered the job yesterday at the one place I've been interviewing at for the past 3 weeks! They had a hard time deciding between me and a 16-yr Dental Assistant, but finally decided they'd rather have me because I was not set in my ways and could be moldable to their needs and style. Thank you for the emails you sent to them, which I'm sure helped in their decision. They paid me for the working interviews, and I will officially start full-time on Monday. The office is only 1.5 miles from my house and I'll not be spending money on gas/wear-tear on my vehicle and the time savings.

I'm working on sending two ladies your way. They are both seriously considering your training, especially now that they see my fast success in landing a job.

Thanks again for everything. You are a blessing to me and my daughters for offering this course. I know I told you before, but I need you to know that had it not been for this course, I would not have been able to be a dental assistant due to college costs and time restraints. Your class has literally changed my life and my daughters' lives for the better. I am excited to be able to get medical insurance for my girls and stop paying out-of-pocket for my insurance premiums. Thank you, a thousand times over!

Thanks,  
Holly

I wanted to write and thank you Cassie and Kim very much for such an enjoyable learning experience at Dental Careers Institute. I am now working at Southwest Maxillofacial Surgery and Implant Center for Dr. G. I absolutely love my new job and the people I work with. I know that it wouldn't have been possible without you, Kim, and Cassie. You all taught me so much.

Thanks again,  
Ashley

I hope all is going well. Since I graduated your Friday class in March, I've started working at 360imaging, a dental imaging lab in the Dunwoody area. It's a great place to be!

I just wanted to let you know I finally found a job!!!! I was hired by Dr. C. here in Athens. The office is absolutely wonderful! I must tell you I feel very confident in my training. Working with you in our class really prepared me for my new job. Dr. C. compliments my skills and training every single day ( he says I am way better trained than the students that graduate from Athens Tech). He is very impressed with all of the information I know and has asked me to step up from part time to full time. I cannot thank you enough for helping me achieve my goals and become part of a rewarding career. Maybe when I have more experience, I can help YOU teach :)  
Keep in touch,  
Paige

Hey! I finally found a job today. My working interview this morning turned into instant employment. I just wanted to say a huge THANK YOU for everything!

Hey..... I got an interview today with Dr. K's office. It is pediatrics and special needs. His two managers interviewed me. I took my FMX chart and my bleach trays and my temp acrylic crown. (even though they don't normally do that there). They were very impressed with my xrays and that I was well prepared for my interview. They said I was the first one to call and come in, so they said they would tell Dr. K good things about me because they liked me so much. They were so warm and welcoming, they are a close nit working family there and I hope he hires me, I love it already. So he is going to call this week to set up a working interview because he was unable to interview me himself today due to a dental emergency. If i get the job I will be his personal dental assistant, nobody else but me, so if he has to take a special needs child to the hospital for sedation he actually takes me with him into the OR. I am so excited. Thanks you guys so much being such great teachers and friends. I couldn't have done it without you and Dr. E.

Thank you so much! Tiffany called me today and I got the position! I start April 4th. I really do appreciate the letter of recommendation. I have thoroughly enjoyed being in your class and have recommended it to many of my friends looking for a career change. I am so overjoyed and grateful, for over 2 years now I have been struggling to find decent employment. And its because of your program, Kim, Cassie, and your tutelage that my life is finally changing for the better. Thank you again for all of your help.  
Sincerely,  
Heather

I wanted to send an email to tell you how the interview / shadowing went. I was scheduled to be there from 10 - 11 am, but ended up staying until 1 pm. I absolutely LOVED every second of it and the time flew by. I

got to welcome, seat, and discuss an issue with one patient, in addition to taking digital periapicals of #30 and #31. I got to help with the tray set-up, ultrasound, autoclave, and disinfecting the operatory between patients.

This experience was tremendous for me. I know I would be a perfect fit in their practice, and I THINK they felt the connection with me because they said they will be calling me back next week for a second interview

I am so excited about my experience today. I know I will love this career! I want to thank you for your time and efforts in making this course happen. Had you not started this school, I would not have been able to be a dental assistant due to college time requirements and costs. Because of you, I am experiencing an amazing new world in which I will thrive!

See you in the morning!

Well, I applied for a job through Dental Post. I had a phone interview, and then went in for a regular interview one week later. They liked me so much they wanted me to come back for a working interview. Normally they wait until they meet 15 applicants before they make that decision. I went yesterday for my working interview and they were already talking like I had the job. I talked with the office mgr. after and she said that she and Dr. J (who I met my first interview) liked me at the moment they met me. They had 67 applicants apply to their posting. Well she had to get back to me on pay, so she called this morning. She said she talked with the girls at the office and they loved me and wanted me to start today. He offers medical, 401k and quarterly bonuses. I work 4 days a week Mon-Fri 8am -5 pm. One day off during the week. No weekends. Yeah!! I am so excited. Thanks,

Melissa

I apologize for responded back to your email so late. Yes sir, I have a job!! I am a Dental Assistant for Dr. C at \_\_\_\_\_ Dental Group. They called me the first week of December, telling me that the other Dental Assistant was leaving at the end of the year and wanted to know if I had a job. After speaking with her extensively, going on an interview and playing phone tag for weeks, I finally got in!!! YAY!! They started me out at \$15.00 an hour and after 90 days, that will go up to either \$17.00 or \$18.00. My husband, family & friends are all so proud of me and this would have not been possible without YOU and DC!!!!

Hello Dr. Erickson, I've been meaning to email you but I'm employed at \_\_\_\_\_ in Sandy Springs. I'm coming in close to the end of my three month paid internship and I don't foresee any reason I should be going anywhere. I just love being a dental assistant and feel like I have the kind of job assistants dream about. I had the opportunity to go to the Hinman Dental Meeting today and will also be going tomorrow which is great opportunity for me. I feel so lucky to find your school and for building blocks you have given me to start this wonderful career. I've also gotten to build on the skills by assisting with implants as well in my office. Every day is so exciting and there is always something new to learn about to help shape me into a better assistant. Thank you again, as well as Kim and Cassie. I always brag about the school to my office as well to others looking for a great new career. Thank you so much again. Sincerely, Charity
